## MEDI-CAL PROGRAM

1996

This report presents statistical data on Medi-Cal program services, expenditures, and eligibles for Calendar Year 1996.

County Welfare Departments determine eligibility for all Medi-Cal eligibles with the exception of Supplemental Security Income/State Supplementary Payment (SSI/SSP) eligibles, who have their eligibility determined by the Social Security Administration.

Persons eligible for Medi-Cal are reported to the Medi-Cal Eligibility Data System (MEDS) by the County Welfare Departments, the State, and the Social Security Administration.

Payment data used in this report are based on the concept of month of payment rather than month of service. The difference can be best explained by pointing out that payments made in a given month can be for services rendered in one or more previous months.

It should be noted that expenditures in this report are based on paid claims computer tapes prepared by various entities that process Medi-Cal claims and do not represent official budget figures or accounting records. Audit recovery monies, Medicare premiums, refunds, and administrative expenses are not included in this report except when specifically noted.

This report does not account for drug rebates from contracts with manufacturers nor Disproportionate Share Hospital Payments.

## NOTE ON DATA PRESENTATION

Generally, the data in this report include the Medi-Cal Fee-For-Service Program, Medi-Cal beneficiaries in State Hospitals, and Medi-Cal beneficiaries covered under a capitation contract with Delta Dental Service.

Data on Capitated Health Systems are excluded from a number of tables in this report. Capitated Health Systems receive a monthly capitation payment to provide services to enrollees, so cost figures for specific services are not available.

Capitated Health Systems data are included in Tables 1, 2, 14, 15, 28, and 29.

The Fee-For-Service data for Primary Care Case Management Plan beneficiaries are included in this report.

During Calendar Year 1996, those enrolled in comprehensive managed care plans comprised 21.6 percent of the total Medi-Cal population (compared to 14.5 percent during Calendar Year 1995). As used here, comprehensive plans means those plans that are capitated to provide more than a limited range of services, including Two Plan Models and GMC. Plans that provide only dental or mental health, for example, are not comprehensive plans. PCCMs are not comprehensive plans.

Use of any expenditure data series for comparison of trends over time is infeasible since the advent of the managed care because of a sharp decline in service reporting among new managed care plans.

The Combined fee-for-service and managed care populations are included in Tables 1 and 28, which reports on the eligible population. The majority of the remaining tables include only fee-for-service data. Tables 14 and 15 include only those enrolled in comprehensive managed care plans.

## **MEDI-CAL PROGRAM STATISTICAL SUMMARY**

### **CALENDAR YEAR 1996**

In 1996, a total of 5.38 million persons per month were eligible for Medi-Cal. This includes Fee-For-Service, County Organized Health Systems, and Prepaid Health Plans. This represents a decrease of 0.8 percent from 1995.

A total of \$667.5 million in prepaid capitations were received by County Organized Health Systems (an increase of 119.8 percent from 1995) to provide non-dental medical services for an average of 398,493 eligibles per month during 1996 (an increase of 116.7 percent from 1995).

The 764,694 persons enrolled in Prepaid Health Plans (PHPs) each month reflected a 26.6 percent increase from 1995. PHP capitation payments totaled \$866.0 million which was an increase of \$160.2 million from 1995.

The large increase in Capitated Health System eligibles is mainly due to Managed Care Expansion. This increase to some extent contributed to the decrease in Public Assistance, Medically Needy, and Medically Indigent Fee-For-Service eligibles.

There were 2.32 million persons who used Medi-Cal benefits each month in 1996. This includes Fee-For-Service Only benefits. Provider payments for those users totaled \$10.36 billion which was 2.4 percent or \$240.8 million more than in 1995.

Compared to 1995, Fee-For-Service Medi-Cal users increased 0.1 percent and the respective eligible population (4.22 million persons per month) reflected a 9.0 percent decrease.

There were 10.0 percent more users per 1,000 eligibles in 1996. The utilization rate was 55.0 percent compared to 50.0 percent for 1995.

The average cost per user was \$372.63 per month (up 2.3 percent from 1995) and the average cost per eligible was \$204.89 per month (up 12.5 percent from 1995).

Public Assistance eligibles, excluding Capitated Health System eligibles, averaged 3 million persons per month, a decrease of 11.0 percent from 1996. This aid group accounted for 71 percent of the Fee-For-Service eligible population, 72 percent of the users, and 56 percent of total provider payments (\$5.84 billion).

Medically Needy eligibles averaged 499,471 persons per month in 1996, a decrease of 8.0 percent from 1995. Medically Needy accounted for 12 percent of Fee-For-Service eligibles, 14 percent of users, and 30 percent of total provider payments (\$3.11 billion).

Medically Indigent eligibles averaged 228,084 persons per month, an 8.4 percent decrease from 1995. Medically Indigent accounted for 5 percent of Fee-For-Service eligibles, 5 percent of users, and 4 percent of total provider payments (\$362.8 million).

County and community hospital services accounted for 31.4 percent of 1996 provider payments. County hospitals received \$815.0 million. Community hospitals received \$2.43 billion.

Medi-Cal purchased Medicare Part A and Part B Supplemental Medical Insurance for an average of 748,773 Aged and Disabled eligibles each month in 1996. Monthly premiums averaged \$33.6 million.

## Section 1

### HIGHLIGHTS OF 1996 PROGRAM CHANGES

The following discusses the major changes of the Medi-Cal program during Calendar Year 1996.

#### New County Health System: Santa Cruz County Health Options (SCCHO), January 1, 1996

A new County Health Initiative was implemented for Santa Cruz County Medi-Cal recipients. Santa Cruz County Health Options (SCCHO) is a Medi-Cal county-wide program administered by the Santa Cruz Managed Medical Care Commission.

Beginning January 1, 1996, SCHO will serve all Medi-Cal eligible and Medicare/Medi-Cal eligible recipients who have ID numbers with County Code 44 (Santa Cruz County) and one of the following aid codes.

<u>Category</u>	<u>Aid Codes</u>
Adult	81, 86, 87
Aged	10, 14, 16, 17, 18
Child	03, 04, 45, 82, 83, 4C, 4K, 5K
Disabled	20, 24, 26, 27, 28, 36, 60, 64, 65, 66, 67, 68, 6A, 6C
Family	01, 02, 08, 30, 32, 33, 34, 35, 37, 38, 39, 40, 42, 54, 59, 3A, 3C, 3P, 3R
Long Term Care	13, 23, 53, 63

#### Medi-Cal Managed Care Program - Two Plan Model, January 1996

The Department of Health Services (DHS) began implementing the Medi-Cal Two-Plan Model managed care program in January 1996. Operating under a Federal Medicaid freedom of choice waiver, Two-Plan Model contractors now provide or are preparing to provide medical services to nearly all Medi-Cal recipients in 12 California Counties (Alameda, Contra Costa, Fresno, Kern, Los Angeles, Riverside, San Bernardino, San Francisco, San Joaquin, Santa Clara, Stanislaus, and Tulare). Eight counties had at least one plan operational by the end of 1996, with Alameda and Kern being fully implemented (both the Local Initiative and Commercial Plan were operational).

In each of the 12 counties, DHS has contracted with two managed care plans to render Medi-Cal services. One contract, awarded through competitive bidding, is with a commercial health plan. The other contract is with a local initiative - a publicly sponsored health plan cooperatively developed by local government, clinics, hospitals, physicians, and other providers - that historically served the Medi-Cal population in that county. Medi-Cal services not covered by the health plans will continue to be available through the Medi-Cal Fee-For-Service program.

The mandatory enrollees (those who must make a choice between the Local Initiative and the Commercial Plan) represent the shift from Fee-For-Service to Managed Care for Public Assistance - Families, Medically Needy - Families, and Medically Indigent Children. The voluntary enrollees (those who may choose to enroll) are those in Public Assistance: Aged, Blind/Disabled; Medically Needy: Aged, Blind/Disabled; AFDC-Foster Care; and Medically Indigent-Adult.

#### Expanded Tuberculosis Services, March 1, 1996

The Medi-Cal Tuberculosis (TB) program implements sections of OBRA 93 which provides Federal Financial Participation (FFP) for outpatient TB services to infected individuals (non-Medi-Cal). Health Care Financing Administration (HCFA) has determined that Direct Observational Therapy (DOT) must be billed as a direct service rather than as a Medi-Cal Administrative Activity. This policy change adds DOT as a Medi-Cal funded service for all Medi-Cal eligibles who are infected with TB.

#### Expanded Medical Case Management, April 1, 1996

Medical Case Management is expanding into additional hospitals, specifically county hospitals, to provide alternative outpatient services for hospital inpatients with follow-up to ensure continuity of care postdischarge. The program is also expanding to cover patients who are less chronically/catastrophically ill than is in the current caseload.

#### Transitional Inpatient Care (TC) Program, April 1, 1996

Effective April 1, 1996, the Department implemented the Medi-Cal Transitional Inpatient Care (TC) Services program for hospital inpatients who are clinically stable and have medical and/or rehabilitative care needs of short-term durations which can be provided at a lower level of care in either a qualified nursing facility or hospital bed.

#### Antidepressant Drugs, May 1, 1996

On May 1, 1996, newer and safer antidepressant drugs were added to the Medi-Cal List of Contract Drugs.

#### Medicaid Demonstration Project, May 1, 1996

The Medicaid demonstration project is designed to address the current fiscal crisis at the county level by helping to stabilize county health care systems, and to foster a unique restructuring process that is responsive to the needs of local communities within the evolving health care environment.

#### Gamma v. Belshé, July 1, 1996

A lawsuit brought in federal court, involves the issue of whether Medi-Cal procedures for determining maintenance need levels and deeming of income from responsible relatives in households affected by the earlier Sneed v. Kizer case violate federal law. The court ruled on November 16, 1995, that the Department must allow the parents to meet their own financial needs before allocating any of their income to their children.

The court approved the Department's plan for implementing this change.

### Medicare Outpatient Crossover Claims, September 1996

As a result of lawsuits filed by the California Medical Association and the California Ambulance Association, Medicare coinsurance and deductibles for outpatient services are to be paid for Qualified Medicare Beneficiaries (QMBs) even though combined Medicare/Medi-Cal payments to the provider will exceed Medi-Cal allowable costs.

### Federal Medical Assistance Percentage (FMAP) Changes, October 1, 1996

Each year the Federal Government calculates the Federal Medical Assistance Percentage (FMAP) which determines the Federal sharing ratio used for medical assistance payments for each state. The calculation is based on a complex formula involving per capita income in each state in relation to total U.S. per capita income. The FMAP has a minimum of 50% and a maximum of 83%. California had been at the minimum of 50% since Medicaid began.

The FMAP for California which applies to cash payments for the Federal Fiscal Year (FFY) beginning October 1996 is 50.23%. The FMAP for the FFY beginning October 1997 has been calculated to be 51.23%.

### Minimum Wage Increase, October 1996

The new minimum wage changes, including both Federal and State changes, result in the following four new levels above the previous rate of \$4.25 per hour:

1. \$4.75/hour as of October 1, 1996 (federal)
2. \$5.00/hour as of March 1, 1996 (state)
3. \$5.15/hour as of September 1, 1997 (federal)
4. \$5.75/hour as of March 1, 1998 (state)

### Airport Residency Review, November 1996

Audits and Investigations currently has a joint project with Immigration and Naturalization Service (INS) at the Los Angeles and San Francisco International airports. This program identifies those entering California who are currently receiving or previously received Medi-Cal benefits. Payments made on behalf of the recipient are verified and the opportunity for repayment is provided to the entrant. INS inspectors determine entry status at the international terminal and may grant or deny entry based on their evaluation of the circumstances. If entry is denied, the Medi-Cal eligibility is terminated due to lack of California residency.

To implement this project, three limited-term investigators were hired in July 1996 to handle arrivals at these two airports.

NOTE

The Immigration Reform and Control Act (IRCA) Alien Program (Aid Codes 51, 52, 56, and 57) expired December 31, 1994.

NOTE

This report is for informational purposes only and does not purport to be, or attempt to give, a legal interpretation of rules, regulations, and laws pertaining to the Medi-Cal Program. Questions and comments may be directed to Mary Cline, Medical Care Statistics Section, (916) 657-2794.

SECTION 2

MEDI-CAL ELIGIBLES AND USERS

## **MEDI-CAL ELIGIBLES, ALL PROGRAMS - TABLE 1**

Total Medi-Cal eligibles (including Fee-For-Service, County Organized Health Systems, and Prepaid Health Plans) averaged 5.38 million persons per month in 1996, a decrease of 0.8 percent from 1995.

Enrollment of Medi-Cal eligibles in Capitated Health Systems increased 47.6 percent in 1996, to a monthly average of 1,163,187 persons. For additional information, See Section 5, Medi-Cal Capitated Health Systems, page 39.

Beginning January 1995, COHS data are no longer included in the FFS data.

Fee-For-Service (FFS) Medi-Cal eligibles averaged 4.2 million persons per month, a decrease of 9.0 percent from 1995.

Public Assistance (PA) eligibles averaging 3.0 million persons per month in 1996, decreased 11.0 percent from 1995. PA eligibles accounted for 71.2 percent of all FFS eligibles.

Total Medically Needy (MN) eligibles averaged 499,471 persons monthly and decreased 8.0 percent from 1995. MN eligibles accounted for 11.8 percent of all FFS eligibles.

Total Medically Indigent (MI) eligibles averaged 228,084 persons monthly and decreased 8.4 percent from 1995. MI eligibles accounted for 5.4 percent of all FFS eligibles.

The Immigration Reform and Control Act (IRCA) Aliens program expired December 31, 1994. IRCA is shown for 1995 and 1996 because claims continue to be paid due to the lag from time of service to time of payment.

The Omnibus Budget Reconciliation Act (OBRA) Aliens program averaged 279,284 eligibles per month in 1996, a decrease of 1.2 percent from 1995. OBRA Aliens program eligibles accounted for 6.6 percent of all FFS eligibles.

The Refugee/Entrant programs averaged 2,913 persons monthly, a decrease of 48.4 percent from 1995. Refugee/Entrant program eligibles accounted for 0.1 percent of all FFS eligibles.

The 100 Percent Poverty, 133 Percent Poverty, 185 Percent Poverty, and the 200 Percent Poverty programs averaged 197,395 persons monthly, an increase of 13.4 percent from 1995. These programs accounted for 4.7 percent of all FFS eligibles.

Data for the Presumptive Eligibility for Pregnant Women program are not available.

The remaining programs (60-Day Postpartum, Dialysis, Total Parenteral Nutrition, Qualified Medicare Beneficiary, and Medi-Cal Tuberculosis) averaged 5,276 persons per month, an increase of 19.8 percent from 1995. These programs accounted for 0.1 percent of all FFS eligibles.

The large increase in Capitated Health System eligibles is mainly due to Managed Care Expansion. This increase to some extent contributed to the 11.0 percent decrease in Public Assistance, 8.0 percent decrease in Medically Needy, and 8.4 percent decrease in Medically Indigent Fee-For-Service eligibles.

## TOTAL ANNUAL PAYMENTS - TABLE 2

This is a companion to Table 1, showing payments by type of program. In this table, you will see Total Annual Medi-Cal payments, then a separate count of payments for County Organized Health Systems (COHS) and Prepaid Health Plans (PHPs), followed by Fee-For-Service (FFS) by Program and Aid Category for 1995 and 1996.

Total Annual Medi-Cal payments (including Fee-For-Service, County Organized Health Systems, and Prepaid Health Plans) averaged \$11.9 billion in 1996, an increase of 6.9 percent from 1995.

The County Organized Health System estimated capitation payments were \$667 million in 1996, a 119.8 percent increase from 1995.

Prepaid Health Plan capitation payments were \$866 million in 1996, compared to \$706 million in 1995, an increase of 22.7 percent.

The large increase in Capitated Health Systems payments is mainly due to Managed Care Expansion.

Capitated Health System payments (COHS and PHPs) are not included in the FFS breakdown.

Beginning January 1995, COHS data are no longer included in the FFS data.

Total Annual Medi-Cal FFS payments were \$10.36 billion in 1996, an increase of 2.4 percent from 1995.

Payments for persons in the Public Assistance (PA) group ran \$5.84 billion, an increase of 3.7 percent from the \$5.63 billion in 1995. PA payments accounted for 56.3 percent of all FFS payments.

Over \$3 billion was paid for services provided to the Medically Needy (MN), up 1.2 percent from 1995. MN payments accounted for 30.0 percent of all FFS payments.

Total Medically Indigent (MI) payments were \$363 million, down 2.4 percent from the \$372 million in 1995. MI payments accounted for 3.5 percent of all FFS payments.

The Immigration Reform and Control Act (IRCA) Aliens program expired December 31, 1994. IRCA is shown for 1995 and 1996 because claims continue to be paid due to the lag from time of service to time of payment.

The Omnibus Budget Reconciliation Act (OBRA) Aliens program payments were \$630 million, up \$47,804 from the previous year. The OBRA Aliens program payments accounted for 6.1 percent of all FFS payments.

Payments for the Refugee/Entrant programs were \$12 million, down 47.0 percent from the \$23 million in 1995. Refugee/Entrant program payments accounted for 0.1 percent of all FFS payments.

The 100 Percent Poverty, 133 Percent Poverty, 185 Percent Poverty (renamed Income Disregard), and the 200 Percent Poverty programs accounted for \$325 million, a 16.0 percent increase from the \$280 million in 1995. These programs accounted for 3.1 percent of all FFS payments.

Total payments for the remaining groups (excluding Not Reported) were \$49.5 million in 1996, up 62.3 percent from the \$30.5 million in 1995. These payments accounted for 0.5 percent of all FFS payments.

### **MONTHLY MEDI-CAL ELIGIBLES - TABLE 3**

An average of 4,215,519 persons were eligible each month for Medi-Cal fee-for-service benefits during 1996. Average monthly eligibles in the first half of the year ran about 289,274 or 7.1 percent higher than in the last half.

The Public Assistance (PA) program accounted for 71.2 percent of the total annual average eligibles. The PA eligibles averaged 233,715 more persons in the first half of the year than in the last half.

The Medically Needy (MN) program accounted for 11.8 percent of the total annual average eligibles. The average MN eligibles ran 39,540 persons higher in the first half of the year than in the last half.

The Medically Indigent (MI) program accounted for 5 percent of the total annual average eligibles. Eligible counts in the MI program peaked in March. The average MI eligible count was higher in the first half of the year than in the last half.

The Aliens and Refugee/Entrant programs combined accounted for 7 percent of the eligible population.

The 100 Percent Poverty, 133 Percent Poverty, 185 Percent Poverty (renamed Income Disregard), and 200 Percent Poverty programs combined accounted for 5 percent of the eligible population.

The 60-Day Postpartum program accounted for less than 0.1 percent of the eligible population.

The Qualified Medicare Beneficiary program accounted for 0.1 percent of the eligible population.

Data for the Presumptive Eligibility for Pregnant Women program are not available.

The Medi-Cal Tuberculosis program accounted for just a fraction of the eligible population (0.014 percent). The Dialysis and Total Parenteral Nutrition programs combined accounted for just a fraction of the eligible population (0.001 percent).

## MONTHLY MEDI-CAL USERS - TABLE 4

An average of 2,317,864 persons received Medi-Cal program benefits each month in 1996. Monthly users averaged 186,891 more persons in the first half of the year than in the last half.

A monthly utilization rate can be computed from Tables 3 and 4. The utilization rate for the Total Fee-For-Service Program is 55 percent of eligibles receiving service each month.

The Public Assistance (PA) group, which accounted for 71.8 percent of the total annual average Medi-Cal users, had a utilization rate of 55 percent. There were an average of 151,852 fewer PA users in the first half of the year.

The Medically Needy (MN) group, which accounted for 14 percent of the total annual average users, had a utilization rate of 64 percent. There were an average of 27,588 more MN users in the first half of the year.

The Medically Indigent (MI) group, which accounted for 5 percent of the total annual average users, had a utilization rate of 51 percent. These users averaged 9 percent more MI users in the first half of the year.

The Aliens and Refugee/Entrant groups accounted for 4 percent of the total annual average users.

The 100 Percent Poverty, 133 Percent Poverty, 185 Percent Poverty (renamed Income Disregard), and the 200 Percent Poverty groups combined accounted for 4 percent of the total annual average users.

The 60-Day Postpartum, Qualified Medicare Beneficiary, Presumptive Eligibility for Pregnant Women, Medi-Cal Tuberculosis Program, and All Other groups combined accounted for 1.5 percent of the total annual users.

## MEDI-CAL UTILIZATION - TABLE 5

Comparing persons eligible during a period with claims paid (rather than services provided) in that period gives rather crude comparisons, but the more correct comparison would not generally result in significantly different utilization rates.

An average of 2,317,864 persons received Medi-Cal program benefits each month in 1996. This was 2,808 fewer monthly users than in the prior year.

The total number of users per 1,000 eligibles increased 10.0 percent, from 500 in 1995 to 550 in 1996. The total number of users include the Presumptive Eligibility for Pregnant Women program, however, eligibles are not available. If these users are excluded, the overall utilization rate calculates to be 543 in 1996.

In 1996, the Public Assistance group, which accounted for 71.8 percent of total users, had a utilization rate of 55 percent. The Medically Needy group had the highest utilization rate of 64 percent.

The 1996 rates compared to the 1995 rates ran higher for each group except for the 200 Percent Poverty group.

Calendar Year 1996 data do not include users of health care services provided by County Organized Health Systems (COHS) or Prepaid Health Plans (PHPs).

SECTION 3  
MEDI-CAL EXPENDITURES

**PAYMENT PER ELIGIBLE**  
**BY PROGRAM AND AID CATEGORY - TABLE 6**

The average monthly payment per eligible was \$204.89 in 1996. This represents an increase of \$22.80 per eligible or 12.5 percent over the prior year. Payments include the Presumptive Eligibility for Pregnant Women program, however, eligibles are not available. If these payments are excluded, the overall cost per eligible calculates to be \$203.98.

Relative cost increases exceeding the overall 12.5 percent were experienced by the Public Assistance Aged (up 14.7 percent) and Families (up 14.1 percent); Medically Needy Blind (up 12.7 percent) and Disabled (up 16.9 percent); 185 Percent Poverty (renamed Income Disregard) Infant (up 19.6 percent); and the Medi-Cal Tuberculosis Program (up 50.9 percent).

Public Assistance Families, which is a major expenditure group, had a relatively small increase in cost per eligible, up 14.1 percent to \$86.91 per month in 1996.

Calendar Year 1996 data do not include payments for health care services handled by County Organized Health Systems (COHS) or Prepaid Health Plans (PHPs).

**PAYMENT PER USER**  
**BY PROGRAM AND AID CATEGORY - TABLE 7**

During 1996, the Medi-Cal program spent \$372.63 per month per user of service. This was \$8.22 or 2.3 percent more than in 1995.

The lowest monthly cost group was the Medi-Cal Tuberculosis program beneficiary at \$96.94 per user, followed by the 133 Percent Poverty beneficiary at \$105.64 per user.

Public Assistance Aged, Blind, and Disabled Medi-Cal payments are relatively low because practically all this group has concurrent Medicare coverage which pays a substantial portion of the medical bill.

The cost for Public Assistance (PA) Families was \$180.46 per user per month, while for Medically Needy (MN) Families it was \$276.28. A larger proportion of MN Families utilize hospital inpatient services resulting in higher cost rates.

Costs per user in the MN Aged, Blind, and Disabled groups tend to be rather large. This is because a large number of persons in these groups are in a long-term care facility. The cost per Medically Needy user runs almost three times that of Public Assistance users.

Cost per user for Medically Indigent Adults showed an increase of 1.3 percent from the previous year.

The OBRA Aliens, Refugee/Entrant, 100 Percent Poverty, 133 Percent Poverty, 200 Percent Poverty, 60-Day Postpartum, Dialysis, Total Parenteral Nutrition, and Qualified Medicare Beneficiary all showed decreases in the cost per user while the cost per user for Presumptive Eligibility for Pregnant Women and Medi-Cal Tuberculosis showed increases.

## **COST PER SERVICE - TABLE 8**

The most frequently used physician service is, of course, the outpatient visit. In 1996, the Medi-Cal average cost per physician outpatient visit was \$23.06. Outpatient visits include office, emergency room, home, and other outpatient situations.

Physicians' hospital inpatient visits averaged \$32.32 per visit. Visits for long-term care inpatients averaged \$26.60 per visit.

After outpatient visits, the second largest expenditure category of physician services is for inpatient hospital surgery. This service has the highest cost rate, \$578.40 per service in 1996.

The average cost per drug prescription was \$27.51 in 1996, an increase of 10.7 percent from the prior year.

The highest cost per service in the Medi-Cal program is, of course, for hospital inpatient care. The average cost per hospital inpatient day in 1996 was \$1,032.54 for Public Assistance Families and Medically Needy Families. Those groups accounted for 32.6 percent of total hospital inpatient expenditures in 1996 and were used in Table 8 so that most Medicare/Medi-Cal crossover data could be excluded. Costs include ancillaries as well as accommodations.

In 1996, the average cost per day of care was \$80.53 for nursing facilities and \$109.76 for intermediate care facilities-developmentally disabled.

## **PAYMENTS BY PROVIDER TYPE - TABLE 9**

In 1996, provider payments averaged \$863.7 million per month, up \$20 million from the prior year's average.

Community Hospitals received the largest share of the Medi-Cal provider payments. Monthly expenditures for these hospital services increased 0.9 percent over the prior year to \$202.9 million per month.

Nursing Facilities was the second highest paid provider group. Their payments increased 0.9 percent from 1995 to \$167.6 million per month.

Physicians received \$86.9 million per month in 1996, up 1.0 percent from the prior year.

Payments to County Hospitals averaged \$67.9 million per month during 1996, down 14.4 percent from the prior year.

All of the provider types showed an increase in 1996, except Optometrist, County Hospital, Community Hospital Outpatient, State Hospital and Rehabilitation Facility, which showed decreases of 6.7, 14.4, 1.4, 3.4, and 6.1 percent respectively.

## **COST PER ELIGIBLE BY PROVIDER TYPE - TABLE 10**

The average monthly cost per eligible was \$204.89 in 1996.

Community Hospitals was the largest expenditure category and had the highest cost per eligible per month at \$48.13, up 10.9 percent from 1995.

Cost per eligible in the second largest expenditure category, Nursing Facilities, was \$39.76, an increase of 10.9 percent from 1995.

Pharmacies was the third largest expenditure category and its monthly cost per eligible of \$28.17 reflected an increase of 20.6 percent from 1995.

Payments to Physicians cost \$20.62 per eligible per month, an 11.0 percent increase from 1995.

County Hospitals was the fourth largest expenditure category and its monthly cost per eligible of \$16.11 reflected a decrease of 5.9 percent from 1995.

## **COST PER USER BY PROVIDER TYPE - TABLE 11**

In 1996, the average monthly cost per recipient was \$372.63.

Users of State Hospital services and County and Community Hospital Inpatient services were the most costly - of those three provider types, State Hospital services showed the highest cost per user at \$8,996.33 per month, up 6.5 percent from 1995; County Hospital Inpatient services showed the cost per user at \$5,396.17, down 6.6 percent from 1995; and Community Hospital Inpatient services showed the lowest cost per user at \$3,580.61, down 14.5 percent from 1995.

Home Health Agency showed the largest cost increase from a year ago, up 28.6 percent per recipient.

## TOTAL MEDI-CAL PROGRAM EXPENDITURES - TABLE 12

Table 12 is the only table showing all types of Medi-Cal program expenditures. The following figures reflect actual budget item expenditures and, as such, are reported here by fiscal (budget) year rather than by calendar year.

Total Medi-Cal expenditures were \$16.39 billion for Fiscal Year (FY) 1995-96, a decrease of 0.5 percent from FY 1994-95.

The \$10.7 billion in direct fee-for-service provider payments was an increase of 10.5 percent. These expenditures accounted for 65 percent of the total expenditures in FY 1995-96 and 59 percent in the FY 1994-95.

Delta Dental (DD) is an at-risk fiscal intermediary providing authorization and payment for virtually all types of Medi-Cal dental services rendered. DD covers all Medi-Cal eligibles except those enrolled in PHPs providing dental care. In FY 1995-96, the approximate number of Medi-Cal eligibles covered by DD was 4.97 million persons per month. Capitation payments totaled \$559.2 million, down 21.8 percent from FY 1994-95.

Prepaid Health Plan (PHP) capitations decreased 0.6 percent to \$638.7 million in FY 1995-96.

There were five County Organized Health Systems (COHS) in effect during FY 1995-96. Santa Barbara Health Initiative was effective September 1, 1983, Health Plan of San Mateo was effective December 1, 1987, Solano Partnership HealthPlan was effective May 1, 1994, Orange County Organized Health System (CalOPTIMA) was effective October 1, 1995 and Santa Cruz County Health Options was effective January 1, 1996. Payments to COHS totaled \$448.9 million.

Expenditures for Early Periodic Screening Services decreased 24.8 percent to \$74.9 million in FY 1995-96. The program provides screening, diagnostic, and treatment services for all Medi-Cal eligibles under age 21.

The Short-Doyle/Medi-Cal program provides community mental health services to Medi-Cal program eligibles. The \$345.1 million expenditure in FY 1995-96 reflects an increase of 39.2 percent from the prior fiscal year.

Buy-In is the purchase of Medicare Part A and Part B Medical Insurance Coverage by the Medi-Cal program for those eligibles who are entitled to the coverage. Expenditures for Medicare Part A and Part B Buy-In ran \$640.3 million in FY 1995-96.

Administration costs include various State Departmental expenditures, payments for claims processing operations, and county administrative expenses. In FY 1995-96, these expenditures increased 7.3 percent from the prior fiscal year. Administration costs accounted for 5.2 percent of total expenditures in FY 1995-96 and 4.8 percent of total expenditures in 1994-95.

MEDI-CAL PROVIDER PARTICIPATION

## **SECTION 4**

### **MEDI-CAL PROVIDER PARTICIPATION**

Table 13 shows the total number of selected types of providers and their distribution by amount paid. The figures include out-of-state providers. Physicians include group practices which are counted as one provider. This understates the physician count, but it is not known how many physicians are practicing in a group.

A county distribution of selected types of providers is given in Table 23 and Table 24. The physician and hospital counts of Table 23 differ from Table 13 due to a different billing period used in Table 23.

The majority of providers are in the \$1-\$599, \$600-\$9,999, and \$10,000-\$49,999 payment intervals. However, for Pharmacies, there were more providers in the \$100,000-\$999,999 payment interval.

The large number of total general hospitals and the large number who received less than \$10,000 each reflects the fact that out-of-state hospital billings are included in the data. Table 23 shows 674 hospitals received payment from Medi-Cal for either inpatient services, outpatient services, or both.

For intermediate care facilities for the developmentally disabled (DD), the largest paid amount interval was \$100,000-\$999,999.

For nursing facilities, the largest paid amount interval was \$1,000,000 and Over.

SECTION 5

MEDI-CAL CAPITATED HEALTH SYSTEMS

## **PREPAID HEALTH PLAN ENROLLMENT - TABLE 14**

A Prepaid Health Plan is an organized system which provides comprehensive health care services to an enrolled population.

Under Section 14200 et seq., of the Welfare and Institutions (W&I) Code, the Medi-Cal Program provides beneficiaries an opportunity to enroll in a managed care alternative to the Medi-Cal Fee-For-Service (FFS) system. Under this authority, the Department of Health Services contracts with Prepaid Health Plans (PHPs) and pilot projects to provide comprehensive, managed care in specified areas of the State on a prepaid, at-risk basis. Under Federal Law, California's PHPs are the equivalent of Health Maintenance Organizations (HMOs).

PHPs are reimbursed at a per-person per-month FFS equivalent Medi-Cal cost.

Prepaid Health Plan enrollees and payments shown in this report are obtained from the Worksheet for Capitation Payment (Initial Capitation Only, excluding supplemental adjustments, such as, any eligible on hold until certain issues have been resolved; AIDs Capitations; and new eligibles with enrollment beginning after the initial capitation).

An average of 764,694 Medi-Cal eligibles were enrolled in Prepaid Health Plans (PHPs) each month of 1996. The enrollment increased 26.6 percent from the 604,213 persons enrolled in the prior year.

During 1996, \$866.0 million in capitation payments were made to Prepaid Health Plans by the Medi-Cal program. This was \$160.2 million (or 22.7 percent) more than was paid in the prior year.

Los Angeles County was the major county accounting for 362,014 of the 764,694 enrollees in 1996. Capitation payments were up \$26.7 million from the \$419.8 million paid by the Medi-Cal program during Calendar Year 1995. Los Angeles County enrollees accounted for 47.3 percent of the total enrollment and 51.6 percent of the total capitation payments.

Sacramento County, with a monthly average of 113,723 enrollees in 1996, was the only other county with at least 10 percent of the total enrollment. Sacramento County capitation payments for enrollees accounted for \$104.6 million (up \$23.6 million from the prior year) or 12.1 percent of the total capitation payments.

In 1996, eighty-eight percent of all monthly PHP enrollees and ninety-nine percent of the total capitation payments were distributed to Los Angeles County and the combined Counties of Sacramento, San Bernardino, San Diego, Riverside, and San Joaquin.

During 1996, Medi-Cal had contracts with PHPs in 16 counties.

## **COUNTY ORGANIZED HEALTH SYSTEMS - TABLE 15**

County Organized Health Systems (COHS) are prepaid by the Medi-Cal program on a capitated at-risk basis. COHSs are responsible for providing authorization and payment for most non-dental Medi-Cal services rendered to Medi-Cal eligibles residing in their respective counties.

The County Organized Health System estimated eligibles and estimated payments shown in this report are obtained from the Rate Sheet for Managed Care Plans and the Medi-Cal Eligibility Data System Summary File.

County Organized Health Systems currently exist in five counties (Orange, San Mateo, Santa Barbara, Santa Cruz and Solano Counties).

An average of 398,493 Medi-Cal eligibles were enrolled in County Organized Health Systems (COHS) each month of 1996. The enrollment increased 116.7 percent from the average of 183,884 persons eligible each month in 1995. This sharp increase is due to the expansion of County Organized Health Systems.

During 1996, \$667.5 million in capitation payments were made to County Organized Health Systems by the Medi-Cal program. This was \$363.9 million or 119.8 percent more than the \$303.6 million paid in 1995. This large increase is due to the expansion of County Organized Health Systems.

The Santa Barbara Health Initiative (SBHI) was effective September 1, 1983. A total of \$84.1 million in capitation payments were made for an average of 41,906 monthly eligibles during 1996.

The Health Plan of San Mateo (HPSM) was effective December 1, 1987. A total of \$83.1 million in capitation payments were made for an average of 50,102 monthly eligibles during 1996.

The Solano Partnership HealthPlan (SPH) was effective May 1, 1994. A total of \$102.1 million in capitation payments were made for an average of 45,692 monthly eligibles during 1996.

The Orange County Organized Health System (CalOPTIMA) was effective October 1, 1995. A total of \$348.3 million in capitation payments were made for an average of 235,847 monthly eligibles.

The Santa Cruz County Health Options (SCCHO) was effective January 1, 1996. A total of \$49.8 million in capitation payments were made for an average of 24,946 monthly eligibles during 1996.

Figures may differ from previously published reports.

Capitation payments do not include excess risk liability payments, adjustments for enrollees with AIDS, or retroactive capitation rate adjustments made after June 1997. For Fiscal Year 1995-96, excess risk liability payments totaled approximately \$1.0 million and adjustments for enrollees with AIDS totaled approximately \$0.9 million.

Estimated capitation payments do not include payments made to County Organized Health Systems for excess risk liability claims.

## HEALTH PLAN OF SAN MATEO (HPSM)

The Health Plan of San Mateo (HPSM) is a Medi-Cal County Organized Health System, under contract to the State, which is designed to provide a more economical organization of health care resources on a case management basis.

All services authorized for Medi-Cal reimbursement will be provided through the Health Plan of San Mateo with the following exceptions: Services in any federal or state governmental hospital (State hospital does not mean county hospital); Services rendered under the California Children's Services (CCS) case management and not reimbursable under the State's Title XIX program; Child Health and Disabilities Prevention (CHDP) services which are those health care services for eligibles under 21 years of age, and provided in accordance with Title 17, California Code of Regulations (CCR), Section 6800, et seq.; Dental services, as defined in Title 22, CCR, Section 51059; Short-Doyle/Medi-Cal drug services; all Medi-Cal mental health services except outpatient, laboratory and pharmacy; Long term care services rendered by nursing and intermediate care facilities; services rendered under the Adult Day Health Programs pursuant to Title 22, CCR, Section 54001, et seq.; services rendered under the Multipurpose Senior Services Program pursuant to Chapter 5 (commencing with Section 9400) of Part 1 of Division 8.5 of the Welfare and Institutions Code; and Home or community-based care waived services.

OBRA/IRCA recipients in San Mateo County began receiving services through the Health Plan of San Mateo (HPSM), effective September 1, 1993.

Currently, all recipients with an identification number beginning with County Code 41 (San Mateo County) with the following Aid Codes are eligible to receive medical benefits under Medi-Cal or as Medicare/Medi-Cal crossovers are served through the Health Plan of San Mateo:

Aged: 10, 14, 16, 17, 18

Disabled: 20, 24, 26, 27, 28, 36, 60, 64, 65, 66, 67, 68, 6A, 6C

Family: 01, 02, 08, 30, 32, 33, 34, 35, 37, 38, 39, 3P, 3R, 40, 42, 54, 59, OA, 3A, 3C, 3G, 3H.

Child: 03, 04, 45, 82, 83, 4C, 4K, 5K

Adult: 81, 86, 87

Long Term Care: 13, 23, 53, 63

IRCA/OBRA: 55, 58, 5F, 5G, 5N

Estimated capitation payments do not include payments made to County Organized Health Systems for AIDs and excess risk liability claims.

### NOTE

The Immigration Reform and Control Act (IRCA) Alien Program (Aid Codes 51, 52, 56, and 57) expired December 31, 1994.

## SANTA BARBARA HEALTH INITIATIVE (SBHI)

The Santa Barbara Health Initiative (SBHI) is a Medi-Cal County Organized Health System administered by Santa Barbara Regional Health Authority under contract to the State. This program provides health care services on a case management basis.

All services authorized for Medi-Cal reimbursement are provided through the Santa Barbara Health Initiative with the following exceptions: Services in any federal or state governmental hospital; Services rendered under California Children's Services (CCS) case management and not reimbursable under the State's Title XIX program; Child Health and Disability Prevention (CHDP) services to eligibles under 21 years of age provided in accordance with the provisions of Title 17, California Code of Regulations (CCR), Section 6800, et seq.; Dental services, as defined in Title 22, CCR, Section 51059; Short-Doyle/Medi-Cal mental health services; Adult Day Health Care; Laboratory analysis and reporting under the State serum alpha-feto protein testing program administered by the Genetic Disease Branch of the State Department of Health Services; The facility or per diem charge component of services rendered to covered beneficiaries 21 to 64 years of age institutionalized in a Joint Commission on Accreditation of Healthcare Organizations (JCAHO) accredited facility designated by the United States Department of Health and Human Services (DHHS) as an Institution for the Mentally Disordered (IMD), except for covered beneficiaries who were receiving such services before turning 21 years of age and who may continue to require such services before turning 21 years of age and who may continue to require such services in which case coverage may be extended until the beneficiary's 22nd birthday; and The facility or per diem charge component of services rendered to covered beneficiaries 64 years of age and under, institutionalized in a non-JCAHO accredited facility designated by DHHS as an IMD.

Currently, all recipients with an identification number beginning with County Code 42 (Santa Barbara County) with the exception of Aid Codes 3A, 3C, 4C, 4K, 5F, 5K, 07, 7A, 7C, 7F, 7G, 7H, 8C, 8F, 9A, 44, 47, 48, 49, 51, 52, 55, 56, 57, 58, 69, 70, 72, 74, 75, 79, and 80 who are eligible to receive medical benefits under Medi-Cal or as Medicare/Medi-Cal crossovers are served through the Santa Barbara Health Initiative. (Medi-Cal Aid Codes are listed at the end of this report.)

Estimated capitation payments do not include payments made to County Organized Health Systems for AIDs and excess risk liability claims.

## SOLANO PARTNERSHIP HEALTHPLAN (SPH)

The Solano Partnership HealthPlan (SPH) is a Medi-Cal County Organized Health System, under contract to the State, which is designed to provide a more economical organization of health care resources on a case management basis for most Medi-Cal recipients residing in Solano County.

Nearly all services authorized for Medi-Cal reimbursement will be provided through the Solano Partnership HealthPlan with the following exceptions: Services rendered under the California Children's Services case management and not reimbursable under the State's Title XIX program; Dental services, as defined in Title 22, California Code of Regulations (CCR), Section 51059; Short-Doyle/Medi-Cal mental health services and alcohol and drug program services; Laboratory analysis and reporting under the State serum alpha-fetoprotein testing program administered by the Genetic Disease Branch of the State Department of Health Services; Services rendered under the Adult Day Health Programs pursuant to Title 22, CCR, Section 54001, et seq.; Services rendered under the Multipurpose Senior Services Program pursuant to Chapter 5 (commencing with Section 9400) of Part 1 of Division 8.5 of the Welfare and Institutions Code; or Home and community-based care waived services as described in Title 22, CCR, Section 51346; Local Education Authority (LEA) services described in Title 22, CCR, Section 51360 when provided pursuant to an Independent Education Plan (IEP) or Individual Family Services Plan (IFSP); LEA assessment services as described in Title 22, CCR, Section 51360 (b) (1) for eligible students; Services rendered in a State or federal hospital; fabrication of optical lenses.

Currently, all recipients with a Medi-Cal identification number beginning with County Code 48 (Solano County) with the following Aid Codes receive medical services through the Solano Partnership HealthPlan:

Aged: 10, 14, 16, 17, 18  
Disabled: 20, 24, 26, 27, 28, 36, 60, 64, 65, 66, 67, 68, 6A, 6C  
Family: 01, 02, 08, 30, 32, 33, 34, 35, 37, 38, 39, 3P, 3R, 40, 42, 54, 59,  
    OA, 3A, 3C, 3G, 3H  
Child: 03, 04, 45, 82, 83, 4C, 4K, 5K  
Adult: 81, 86, 87  
Long Term Care: 13, 23, 53, 63  
IRCA/OBRA: 55, 58, 5F

Estimated capitation payments do not include payments made to County Organized Health Systems for excess risk liability claims.

### NOTE

The Immigration Reform and Control Act (IRCA) Alien Program (Aid Codes 51, 52, 56, and 57) expired December 31, 1994.

## SANTA CRUZ COUNTY HEALTH OPTIONS (SCCHO)

The Santa Cruz County Health Options (SCCHO) is a Medi-Cal County Organized Health System administered by the Santa Cruz Managed Medical Care Commission doing business as Santa Cruz County Health Options under direct contract with the State. The program provides health care on a managed care basis.

All services within the scope of the Medi-Cal program are provided through and must be authorized by SCCHO with the following exceptions: Services authorized by the California Children Services (CCS) program, for diagnosis and treatment of the CCS eligible condition of the specific member; dental services; mental health services, including psychiatric inpatient services and outpatient mental health services provided by mental health professionals; alcohol and drug treatment services available under the Short-Doyle/Medi-Cal program, and outpatient heroin detoxification; services rendered under the Adult Day Health Programs; services rendered under the Multipurpose Senior Services Program; home and community-based care waived services; Local Education Authority (LEA) services when provided pursuant to an Individual Education Plan or Individual Family Services Plan; LEA assessment services for eligible students; services rendered in a State or federal hospital; laboratory services provided under the State serum alpha-feto protein testing program administered by the Genetic Disease Branch of the Department of Health Services; optical lenses and services provided by the Prison Industries Authority State contract; and Targeted Case Management services.

SCCHO serves all Medi-Cal recipients and Medicare/Medi-Cal eligible recipients who have Medi-Cal Identification numbers with County Code 44 (Santa Cruz County) and eligibility under one of the following aid codes:

<u>Category</u>	<u>Aid Codes</u>
Adult	81, 86, 87
Aged	10, 14, 16, 17, 18
Child	03, 04, 45, 82, 83, 4C, 4K, 5K

Long Term Care	13, 23, 53, 63

Capitation payments do not include payments made to County Organized Health Systems for excess risk liability claims.

### NOTE

The Immigration Reform and Control Act (IRCA) Alien Program (Aid Codes 51, 52, 56, and 57) expired December 31, 1994.

## SECTION 6

### MEDICARE PART A AND PART B BUY-IN ACTIVITY

## SECTION 6

### MEDICARE PART A AND PART B BUY-IN ACTIVITY

Medicare, a medical insurance program, and Medi-Cal, a medical assistance program, together work to pay the medical bills of certain needy and low-income persons. The Medi-Cal program purchases Medicare Part A and Part B Supplementary Medical Insurance (SMI) for program eligibles who are entitled to the coverage.

Table 16 is included to show the number of Medi-Cal eligibles who were also eligible for Medicare Part A and Part B SMI coverage and for whom Medi-Cal paid the enrollment premium (bought in for).

Part A SMI benefits include hospital inpatient services.

Medi-Cal paid the monthly Medicare Part A enrollment premium for an average of 68,310 persons (55,708 aged and 12,603 disabled). The monthly premium averaged \$21.8 million.

Part B SMI benefits include physicians' medical and surgical services, outpatient hospital services, outpatient physical therapy and speech pathology services, durable medical equipment, services from independent laboratories, ambulance services, home health care, and a number of other health services and supplies. In addition to paying the monthly enrollment premium for eligible persons, Medi-Cal can pay the annual deductible and the portion of covered medical costs that Medicare does not pay.

In 1996, Medi-Cal paid the Medicare Part B enrollment premium for an average of 442,846 aged persons each month. The monthly premium averaged \$20.1 million.

Medi-Cal paid the monthly Medicare Part B enrollment premium for 305,927 disabled persons with premiums averaging \$13.4 million per month. The Disabled category includes persons in the Disabled or Blind aid categories.

### COUNTY DATA

[Table 17](#) shows the number of Medi-Cal eligibles, including Fee-For-Service (FFS), County Organized Health Systems (COHS), and Prepaid Health Plans (PHPs), by age group and sex, in October 1996.

Males comprise 41 percent of the Medi-Cal eligibles. Most males (67 percent) are under age 21, 23 percent are of ages 21 to 64, and 10 percent are 65 and older.

Fifty-nine percent of eligibles are females. Most females are under age 21 (48 percent), 38 percent are of ages 21 to 64, and 13 percent are 65 and older.

[Table 18](#) shows the average monthly number of persons eligible for Medi-Cal in each county by program and aid category, excluding COHS and PHPs.

Los Angeles County accounted for 35 percent of the FFS eligibles.

[Table 19](#) reports average monthly number of users by program and aid category, excluding COHS and PHPs. Division of Table 19 by Table 18 will give proportion of eligibles using Medi-Cal services, or the utilization rate.

Los Angeles County accounted for 36 percent of the users. Its utilization rate of 56.4 percent was 1.4 percentage points higher than the statewide average of 55.0 percent.

[Table 20](#) is a companion to the two preceding tables. Cost per user can be obtained by dividing Table 20 by Table 19, while division by Table 18 gives cost per eligible.

Los Angeles County accounted for 36.3 percent of the statewide total expenditures. The County's annual cost per user was \$4,534, which was 1.4 percent higher than the unadjusted statewide average and 1.8 percent higher than the statewide average if adjusted to exclude Presumptive Eligibility for Pregnant Women Program users. Los Angeles County's annual cost per eligible was \$2,558, which was 4.0 percent higher than the unadjusted statewide average and 3.8 percent higher than the adjusted statewide average.

[Table 21](#) shows average monthly number of users by type of provider. Utilization rates for the various services can be obtained by dividing the number of users by the county total eligibles of Table 18.

For example, the statewide utilization rate for physician services was 23 percent, or 23 out of every 100 eligibles used this service each month. The Los Angeles County utilization rate for physician services was 29 percent.

[Table 22](#) is a companion to Table 21. Cost per user by type of provider can be derived from the two tables.

For example, Los Angeles County's annual cost per user of physician services was \$1,091.49, which was 3.4 percent higher than the statewide average of \$1,055.10.

It can be noted from Table 22 that physician services accounted for 10.1 percent of total expenditures statewide and 12.2 percent of expenditures in Los Angeles County. Such comparisons can be made for each type of provider.

[Table 23](#) shows the number of physicians and hospitals receiving payments from the Medi-Cal program during the July-September 1996 quarter. The hospitals are the general acute care facilities and exclude state hospitals. Primary care physicians are reported separately by type of primary care specialty. Any other specialty (e.g., psychiatry, pathology, etc.) is included in the All Other column.

The number of physicians is understated. Due to the billing procedures used in the Medi-Cal program, the number of physicians practicing in groups is not known. Therefore, a group is counted as only one physician throughout this table.

Forty-three percent of the physicians billing the program were primary care physicians. 18 percent of the physicians were general practice/family practice physicians, 12 percent specialized in internal medicine, 8 percent specialized in obstetrics/gynecology, and 6 percent were pediatric specialists.

[Table 24](#) shows the county distribution of selected providers receiving Medi-Cal program payments. These are provider types whose total numbers are high enough to provide a functional county distribution for this table.

As would be expected, Los Angeles County, which is the most populous California county, has the largest proportion of providers. Alpine County had only 237 Medi-Cal eligibles and an estimated 1,190 county population in 1996. Other types of services may be obtained through providers in surrounding counties.

[Table 25](#) shows the population and Medi-Cal eligibles (including FFS, COHS, and PHPs) for each county.

Los Angeles County (the most populous California county) accounted for 29.0 percent of the population and 34.0 percent of the eligibles; followed by San Diego County accounting for 8.3 percent of the population and 6.6 percent of the eligibles; and Orange County accounting for 8.2 percent of the population and 5.3 percent of the eligibles.

[Table 26](#) shows the number of persons certified eligible for Medi-Cal (including FFS, COHS, and PHPs) by county and race/ethnicity in October 1996.

Of the 5,359,001 persons certified eligible for Medi-Cal in October 1996, 2,056,162 were Hispanic; 1,597,819 were White; 734,936 were Black; and 970,084 were of Other and Not Reported race/ethnicities.

In terms of percentages, 38.4 percent of the Medi-Cal eligibles were Hispanic, 29.8 percent White, 13.7 percent Black, 8.0 percent Asian/Pacific Islander, 0.4 percent American Indian/Alaskan Native, and 9.6 percent Not Reported/race ethnicities.

[Table 27](#) shows the number of providers by provider type and status. As of December 31, 1996, there were 80,071 providers with Active Status, 225,340 providers with Inactive Status, 141 providers with Pending Status, 3,661 providers with Deceased Status, 1 provider with Rejected Status, 1,810 providers with Suspended Status, 51,351 providers with Indirect Status, and 285 providers with Contract Status.

**Please Note:** The paid claims data on Tables 19-25 (Users and Payments) are understated for Orange, Sacramento, San Mateo, Santa Barbara, Santa Cruz and Solano Counties due to the fact that not all covered services are reimbursed on a per claim basis.

Note: FFS = Fee-For-Service; IRCA = Immigration Reform and Control Act; OBRA = Omnibus Budget Reconciliation Act.

The IRCA program expired December 31, 1994. IRCA is shown for 1996 because claims continue to be paid due to the lag from time of service to time of payment.

Averages are rounded independently and may not add to totals.

/ 1/ Availability of data is limited for Orange, Sacramento, San Mateo, Santa Barbara, Santa Cruz, and Solano Counties.

Note: FFS = Fee-For-Service; IRCA = Immigration Reform and Control Act; OBRA = Omnibus Budget Reconciliation Act.

The IRCA program expired December 31, 1994. IRCA is shown for 1996 because claims continue to be paid due to the lag from time of service to time of payment.

Averages are rounded independently and may not add to totals.

/1/ Availability of data is limited for Orange, Sacramento, San Mateo, Santa Barbara, Santa Cruz, and Solano Counties.

Note: FFS = Fee-For-Service; IRCA = Immigration Reform and Control Act; OBRA = Omnibus Budget Reconciliation Act.

The IRCA program expired December 31, 1994. IRCA is shown for 1996 because claims continue to be paid due to the lag from time of service to time of payment.

Payments are rounded independently and may not add to totals.

Figures in parentheses ( ) indicate negative numbers.

SECTION 8

MEDI-CAL PROGRAM TRENDS

**BlankPage**

## MEDI-CAL PROGRAM OVERVIEW

In July 1965, two major amendments to the Social Security Act greatly expanded the scope of medical coverage available to various segments of the population. Title XVIII established the Medicare program, and Title XIX established the state-option medical assistance program known as Medicaid that provided Federal matching funds to states implementing a single comprehensive medical care program.

State legislation implementing the Title XIX program was signed in November 1965. Medi-Cal, California's medical assistance Medicaid program, became effective in March 1966. Under the provisions of Title 22 of the California Code of Regulations, the State Department of Health Services administers the Medi-Cal program and has statutory responsibility to formulate policy that conforms with Federal and State requirements.

The objective of the Medi-Cal program is to provide essential medical care and services to preserve health, alleviate sickness, and mitigate handicapping conditions for individuals or families on public assistance, or whose income is not sufficient to meet their individual needs. The covered services are generally recognized as standard medical services required in the treatment or prevention of diseases, disability, infirmity or impairment. These services are comprehensive and provide care in the major disciplines of health care.

From the inception of the Medi-Cal Program, the State has contracted with a vendor to receive and process Medi-Cal claims.

In 1992, the State released a Request for Proposal (RFP) to all interested vendors. The RFP was developed to fulfill the State's requirements for fiscal responsibilities and good administrative practices, and to meet the Federal requirements under the Medicaid Management Information System (MMIS).

Electronic Data Systems responded to this RFP and was selected in September 1992 to process Medi-Cal claims for the next 5 years.

## MEDI-CAL ELIGIBLES - TABLE 28

Data included in this table are Fee-For-Service (FFS), Redwood Health Foundation (RHF), County Organized Health Systems (COHS), and Prepaid Health Plans (PHPs).

The Medi-Cal eligible population averaged 5.38 million persons per month in 1996. This reflects a decrease of 42,556 or 0.8 percent from 1995 and an increase of 2.3 million or 76.7 percent from 1987.

The large increase in Capitated Health System eligibles is mainly due to Managed Care Expansion. This increase to some extent contributed to the decrease in Public Assistance, Medically Needy, and Medically Indigent Fee-For-Service eligibles.

Beginning January 1995, COHS data are no longer included in the FFS data.

Public Assistance FFS eligibles averaged 3 million persons per month in 1996, a decrease of 11.0 percent from 1995.

Medically Needy eligibles averaged 499,471 persons per month in 1996, a decrease of 8.0 percent from 1995.

Medically Indigent (MI) eligibles averaged 228,084 persons per month in 1996, an 8.4 percent decrease from 1995.

The Immigration Reform and Control Act (IRCA) Alien program (Aid Codes 51, 52, 56, and 57) expired December 31, 1994. IRCA is shown for 1995 and 1996 because claims continue to be paid due to the lag from time of service to time of payment.

The Omnibus Budget Reconciliation Act (OBRA) Alien program averaged 279,284 persons per month in 1996, a decrease of 1.2 percent from the previous year.

The Refugee/Entrant program averaged 2,913 persons per month in 1996, a decrease of 48.4 percent from 1995.

The 100 Percent Poverty, 133 Percent Poverty, 185 Percent Poverty (renamed Income Disregard), and 200 Percent Poverty programs averaged 197,395 persons per month in 1996, compared to 174,015 in 1995.

The 60-Day Postpartum program averaged 1,870 persons per month in 1996, a difference of 110 eligibles from the previous year.

The Dialysis and Total Parenteral Nutrition programs are small, with an average of 35 eligibles per month in 1996, compared to 34 in 1995.

The Qualified Medicare Beneficiary program averaged 2,769 eligibles per month in 1996, an increase of 24.0 percent from 1995.

Data for the Presumptive Eligibility for Pregnant Women program are not available.

The Medi-Cal Tuberculosis program averaged 602 eligibles per month in 1996, an increase of 59.7 percent from 1995.

## MEDI-CAL PAYMENTS - TABLE 29

Data included in this table are Fee-For-Service (FFS), Redwood Health Foundation (RHF), County Organized Health Systems (COHS), and Prepaid Health Plans (PHPs).

During 1996, Medi-Cal program payments ran \$11.9 billion. This reflects an increase of \$764.9 million or 6.9 percent from 1995 and an increase of \$7.0 billion or 141.1 percent from 1987.

Beginning January 1995, COHS data are no longer included in the FFS data.

Public Assistance, the largest group in terms of total FFS expenditures, received \$5.8 billion in services during 1996, a 3.7 percent increase from 1995.

The Medically Needy group received \$3.1 billion in services during 1996, an increase of 1.2 percent from 1995.

Medically Indigents received a total of \$362.8 million in services during 1996, compared to \$371.9 million or a 2.4 percent decrease in 1995.

The Aliens and Refugee/Entrants received a total of \$643.0 million in services during 1996, a decrease of 2.5 percent from 1995. The Immigration Reform and Control Act (IRCA) Alien program (Aid Codes 51, 52, 56, and 57) expired December 31, 1994. IRCA is shown for 1995 and 1996 because claims continue to be paid due to the lag from time of service to time of payment.

The 100 Percent Poverty, 133 Percent Poverty, 185 Percent Poverty (renamed Income Disregard), and 200 Percent Poverty programs ran \$325.1 million during 1996, a 16.0 percent increase from the previous year.

The 60-Day Postpartum program ran \$1.6 million during 1996, a 16.6 percent decrease from 1995.

The Dialysis and Total Parenteral Nutrition programs ran \$317 thousand during 1996, a 76.5 percent decrease from 1995.

The Qualified Medicare Beneficiary program ran \$1.6 million in 1996, compared to \$1.4 million in 1995, or a 16.5 percent increase.

The Presumptive Eligibility for Pregnant Women program ran \$45.8 million during 1996 and \$25.8 million in 1995, or a 77.6 percent increase.

The Medi-Cal Tuberculosis program ran \$179 thousand during 1996, compared to \$74 thousand in 1995, or 140.9 percent increase.

The increase in expenditures in 1996 from previous years is attributable to a higher rate of use by beneficiaries, reimbursement rate increases to providers, inflation, and changes in services.

DEFINITIONS OF TERMS

**Blank Page**

## DEFINITIONS OF TERMS

The following defines commonly used terms used in discussions of Medi-Cal. The definitions are essentially correct, but some are much more complex than indicated below.

Beneficiary:	Inconsistently used to indicate a person who receives service (user or recipient) or a person eligible for service.
Capitate:	Refers to the payment of a set amount of money per month per person Capitation to an agency. The agency then provides medical care for all persons paid for. Essentially an insurance premium arrangement.
Categorical:	Designates persons eligible for assistance because they fall into certain welfare groups or categories (Aged, Blind, Disabled or AFDC).
CID:	The Centralized Identification system was a computer system which mailed out Medi-Cal ID cards each month to eligibles. Some reports on eligibility still use this term.
COHS:	County Organized Health Systems. Under this approach, the county acts as the primary contractor serving most Medi-Cal beneficiaries in the county. The COHS receive a capitated rate for each beneficiary in the county, and assume full financial risk.
Costs:	Medi-Cal Program payments or expenditures, usually to providers for services rendered. But may include all program expenditures.
Crossover: (X-over)	Refers to a claim that has been processed and paid in part by Medicare and then processed by Medi-Cal for those with dual eligibility. Also referred to as Medi-Medi Claim.
Encounter:	Service/Supply rendered to a Medi-Cal beneficiary. Also referred to as a Shadow Claim if the Service/Supply is rendered under Managed Care.
Eligibles:	Persons who have been processed through the system and determined to meet the criteria for receiving medical assistance under the Medi-Cal Program.
Enrollees:	Eligibles who have joined Managed Care Plans.
Expenditures:	See Costs.

## DEFINITIONS OF TERMS, Continued

Federal Financial Participation: (FFP)	The amount of money the Federal Government pays in the operation of the Medicaid Program. FFP varies from 50 percent to 90 percent depending on type of service and meeting of stipulated criteria.
Fee-For-Service: (FFS)	Used to distinguish regular Medi-Cal Program from the Managed Care Program: Fee-For-Service eligibles are persons not enrolled in Managed Care Plans.
GMC:	Geographic Managed Care. Under this approach, the Medi-Cal Program negotiates contracts directly with providers to accept beneficiaries within a specified area, again paying a monthly rate based on the estimated cost of providing services to similar beneficiaries under the fee-for-service system. The Department implemented this approach in Sacramento County in April 1994.
HMO:	Health Maintenance Organization. (See PHPs.)
Medi-Cal:	California's name for Medicaid, includes the federal and state program of medical assistance for needy and low-income persons. (Federal designation of the Medical Assistance Program authorized under Title XIX of the Social Security Act.)
Medi-Cal Card:	An identification card given to Medi-Cal eligibles.
Medically Indigent:	A group of persons eligible for Medi-Cal Program benefits who are not categorically linked. Distinguished from Public Assistance and Medically Needy eligibles.
Medically Needy:	Categorically linked individuals eligible for medical assistance who meet the same eligibility criteria as Public Assistance persons. However, the MNs do not receive cash assistance because they have excess property or income according to welfare standards.
Medicare:	The Federal Social Security Program (Title XVIII of the Social Security Act) provides medical care to aged and certain disabled persons. This is essentially a medical insurance program, as opposed to Medicaid which is a public assistance program for the needy.
MEDS:	Medi-Cal Eligibility Data System. A major Electronic Data Processing (EDP) system providing online access to over 17 million records of current or former Welfare, Medi-Cal, or County Medical Services Program (CMSP) clients to support administration of those programs and delivery of benefits.

## DEFINITIONS OF TERMS, Continued

MEDSSUM File:	An eligibility summary file that summarizes the number of eligibles by aid code and county on a monthly basis for each month of eligibility.
Paid Claims:	A claim for medical services paid in behalf of a Medi-Cal eligible. Claims data are captured on computer tape and comprise the major data base of the Program. Usually paid claims refers to this data base rather than the actual document.
PCCM:	Primary Care Case Management. PCCM plans are paid a monthly capitation rate to manage selected outpatient services to Medi-Cal beneficiaries enrolled in the plan.
PHPs:	Prepaid Health Plans. Medi-Cal contracts with private entities to provide care to specific beneficiary categories. The PHPs are paid a monthly capitation payment, based on an estimate of the costs of serving beneficiaries in the fee-for-service system. Corresponds to HMO, as designated by the Federal Government.
Provider:	Any individual, group, business, or facility authorized to bill the Medi-Cal Program for services rendered to Medi-Cal eligibles. Includes the full scope of practitioners and facilities, such as physicians, hospitals, chiropractors, pharmacies, nursing facilities, intermediate care facilities, home health agencies, etc.
Public Assistance:	Refers to persons eligible for both cash assistance and medical assistance. These persons are aged, blind, disabled or members of families with dependent children; the assistance categories.
Recipient:	A user of a specified type of service.
SDX:	State Data eXchange: The computer tapes received from Social Security Administration which contain names and addresses of persons eligible for Medicare and Medi-Cal concurrently.
Services:	What providers provide Medi-Cal patients and are paid for by the Medi-Cal Program. Services have to be defined within the context in which they're reported. For example, the units of service for inpatient hospital services are patient days, the unit in prescription drugs is prescriptions, the unit in outpatient visits is visits, etc.

## DEFINITIONS OF TERMS, Continued

SSI/SSP:	Supplemental Security Income/State Supplementary Payment. If you get a SSI/SSP grant, Medi-Cal eligibility is automatically set up by your Social Security district office.
Two-Plan Model:	<p>Two-Plan Contractors now provide or are preparing to provide medical services to nearly all Medi-Cal recipients in 12 counties (Alameda, Contra Costa, Fresno, Kern, Los Angeles, Riverside, San Bernardino, San Francisco, San Joaquin, Santa Clara, Stanislaus and Tulare).</p> <p>The Department will contract with only two managed care plans. One plan will be a locally developed, comprehensive managed care system referred to as the Local Initiative. The other plan will be a non-governmentally operated Health Management Organization referred to as the Commercial Plan.</p>
Vendor:	See Provider.

**Special Indicators:** These indicators, which appear in the aid code portion of the county ID number, help Medi-Cal identify the following:

**IE - Ineligible:** A person who is ineligible for Medi-Cal benefits in the case. An IE person may only use medical expenses to meet the SOC for other family members associated within the same case. Upon certification of the SOC, the IE individual is not eligible for Medi-Cal benefits in this case. An IE person may be eligible for Medi-Cal benefits in another case where the person is not identified as IE.

**RR - Responsible Relative:** A RR is allowed to use the medical expenses to meet the SOC for other family members whom he/she is responsible. Upon certification of the SOC, a RR individual is not eligible for Medi-Cal benefits in this Medi-Cal Budget Unit (MBU). The individual may be eligible for Medi-Cal benefits in another MBU where the person is not identified as RR.
